TOGETHER WE  THE COMMUNITY

# CHIEF EXECUTIVE OFFICER REPORT

Assalamualaikum & Salam Sejahtera.

Yayasan Food Bank Malaysia paddled through a rough water in first half of 2022. In addition to endemic of Covid-19, persistently high inflation, fuelled by supply-chain disruption, soaring essential food products price and political turmoil, created uncertainty in all sectors. Our responses continued to be driven by the imperatives of protecting our people and their families' livelihood, and supporting our communities' survival and also our stakeholders.

We emerge strongly in second half of the year. Our emerging culture is anchored in the core values of discovery, partnership and integrity, and a unifying purpose to serve our underprivileged communities throughout the country. We play a key role in advancing human progress by providing not only food but the insights that spur awareness on food waste, food lost, responsible consumption and production of foods and created an economic opportunities in society. This purpose comes with enormous responsibility. It requires us to do the right thing. It requires us to continue our pioneering ways of discovering new solutions. And it requires us to serve the peoples, the contributors and the donors with trusted information—to be true partners.

Our greatest strength has always been the quality of our people. They are dedicated, diligent and committed in making this fabulous organisation even better. It's a privilege to work along their side. The Chairperson and the Board of Trustees always there standing tall in giving us guidance, and we are grateful on their commitment.

We have moved to the new home, a better place to work and play hard. With a rough 2022 behind us and the rapid progress we've made in servicing people early this year, I feel incredibly optimistic about our organisation. We have market-leading food banking operation with iconic brands. We're expanding on a larger scale than ever and focusing on future growth. We have the talent, technology and data to support the critical decision-making needed by our donors and contributors. And we have a unifying purpose, strategy and culture. All these things make us very confident about the future of Yayasan Food Bank Malaysia.

Together We Serve The Community.
